ALONDRA TORRES

Junior Software Engineer

SUMMARY

Motivated and results-oriented junior software engineering associate with a blend of leadership skills and qualities. A former high school Algebra teacher with the ability to learn new concepts and adapt to new working environments. Looking to bring my skills to a company with global reach.

PROJECTS

ASTEROIDS
A deployed desktop two-player structured like the historically significant SPACE RACE, with a new look. To achieve the animation, I learned how to manipulate Canvas in Javascript.

BEAUTY VAULT
A developed e-commerce site for a makeup store. The design was inspired by the modern and chic designs of some of my favorite websites. Some functions include allowing the client to view the store's product in a variety of ways via different routes and adding items to the cart.

WORK EXPERIENCE

Dallas ISD
Algebra I Teacher, *2018 - 2022*
- Developed and implemented lessons to facilitate student understanding and application of mathematical concepts.
- Managed records of grades for 150 students and performed administrative duties as needed.
- Redesigned various curriculum resources to maximize the student's learning experience.

Target Corp.
Customer Service Associate, *2016-2018*
- Created a welcoming environment for customers at the entry to the store.
- Assisted customers in looking for products and any issues they would have in store.

Which Which?
Team Lead, *2013-2015*
- Managed a group of 5 employees to complete customer orders.
- Set clear team goals and delegated tasks to the team.

VOLUNTEERING

Skyline Raider Robotics, *2018 - Present*
Helped facilitate and judge the annual VEX Robotics Competition at Skyline HS.
